🔗 [Leetcode](#)

## Summary

Skilled software and web developer with over 3.5 years of experience. Proficient in developing dynamic web applications with expertise in both front-end and back-end development. Dedicated to keeping up with industry trends and providing secure, scalable solutions.

## Education

<b>B.Tech (Computer Science &amp; Engineering)</b> , Bundelkhand University, CGPA— 7.5/10.0	2017 - 2021
<b>Intermediate</b> , Board Of High and Intermediate Education (U.P) ,Percentage—79%	March-2016
<b>High School</b> , Board Of High and Intermediate Education (U.P), Percentage—85%	March-2014

## Experience

### Intellisoft Technologies

Sep 2021 - Present

*Software Developer*

*Noida, Up*

- Led 40% improvement in project delivery efficiency and reduced development cycle time by 20%.
- Orchestrated optimizations leading to a 20% boost in query performance and a 25% improvement in overall system performance.
- Leveraged ASP.NET, MVC, C#, and Clean Architecture, adopting a Code-First approach, Database-First approach.
- Mentored interns, fostering a 30% increase in their skills and capabilities.

## Projects

### Sonora Construction | .NET MVC Core,C#, Entity Framework Ajax, and JavaScript,SyncFusion SQL Server

- By consolidating multiple websites into a single, multi-functional platform, the user experience and efficiency were significantly improved. Users now have access to a unified and streamlined interface.
- The integration of SYNC FUSION for UI development resulted in a user-friendly interface, enhancing the overall aesthetic. It reduced the development cost by 35% due to their predefined features like grid, dropdown, etc.
- Implement a multitenancy feature to switch the client from one domain to another domain from a single codebase.
- Elevated user satisfaction by 40% through seamless rendering with AJAX.

### Security Trax | React, .Net core, c#, Bootstrap, Sql Server, Entity Framework

- I developed a dashboard using React.js to create and schedule the appointment and generate the report for security services.
- Designed and deployed a scalable RESTful API using .Net core with Entity Framework, achieving a 30% improvement in data retrieval speed.

### Subscription WhatsApp Notifier | Asp .Net,Web Forms, c#, ADO .Net, Sql Server

- developed a Windows service to automate the billing cycle per day for subscriptions and reduce 80% of manual work.
- Integrate the Gupshup API to send the WhatsApp notification with the help of the Windows service.

### Bulldog Solar | Asp .Net core,MVC, c#,Sql Server, Entity Framework, Twillio

- developed a Windows service to sync the API data to Hubspot at some time interval and reduce 100% of manual work.
- Designed and deployed a scalable RESTful API using a.Net core with Entity Framework to communicate from the Twillio (Massaging Tool) API to send and receive text messages.

## Technical Skills

**Languages:** C#(Proficient), JAVA(Proficient), SQL

**Technologies:** React.js, Bootstrap, ASP.NET, ASP .NET Core, MVC,ASP.NET WebForms, Entity Framework, Selenium, Telerik, EJ2 Syncfusion,Rest Api

**Tools:** Visual Studio, SSMS, RDLC Reports, Bitbucket, Sourcetree, Git

**Others:** OOPS, Data Structure & Algorithm
